OLYMPUS

A time when extraordinary and magical beings reigned. The characters of these myths became the muses of writers, artists and musicians. In MYSTICA SWIMWEAR it also has happened. The Goddesses of Olympus are our inspiration.

In ancient Greece, each element, color, action, power, ritual, was associated with a God. It was believed that the most important divinities lived in a pantheon

located on top of Mount Olympus, the place from which they made sure the world would run its course. And this Mystical Swimwear collection was inspired in these divine beings and in particular by the important role played by the beautiful Goddesses of Olympus – Hera, Aphrodite, Athena, Artemiza and Persephone, each with a Print, color and range that identifies it and makes it unique.
